

To Whom it May Concern:XM Satellite Radio provides to its subscribers, who by the way, pay for this service, information that is available nationwide without interruption.

Not only is this service welcome by over a million subscribers, but THINK ABOUT THIS!!!...XM Satellite radio, also keeps drivers from having to try and find local stations while driving, thus keeping the drivers attention on the road! I support XM radio and respectfully urge the FCC to reject the NAB's petition 04-160
